

Name: _____

Unit 1 Theories

Across

2. Babies need this to speak but do not need to be trained
8. This type of reinforcement according to Bandura leads to behaviour being repeated because of personal satisfaction
10. Chomsky says we are this to learn a language
11. Gesell believes that if a child experiences delayed development then the problem is this

12. According to Bandura this is very important to show appropriate behaviour

13. This happens when new information is added to a schema

14. Chomsky says we cannot learn just through this

Down

1. Stage 1 in Piaget's stages of development between 0-2 years

3. This happens when new information is added to a schema according to Piaget

4. The stage in which children use symbols to represent earlier discoveries

5. Development of concepts about the world around us, one of Piaget's schemas

6. Gesell's theory based on norms & milestones and that we all develop at our own pace

7. Gesell believes this has little influence on our development

9. Series of stages of intellectual development according to Piaget
