

Unit 1 - Matter

**Across**

- 4. Has definite volume but no definite shape
- 8. The Gaseous Elements
- 11. Able to be pressed or hammered without breaking or cracking
- 12. Composed of 2 or more separate mixtures
- 13. Substances that are made of only one type of atom

Down

- 1. A process that involves changing the atomic structure
- 2. A substance made by mixing other substances together
- 3. Can be observed or measured without changing its matter
- 5. A group of atoms bonded together

- 6. A measure of how easy a substance can catch on fire
- 7. The ability to burn or ignite
- 9. Particles has a definite shape and volume
- 10. Has no definite shape or volume
