

Unit 5 Vocabulary

Across

- 4. Concentrated towards the lower range of the data
- 9. When a line is either linear (straight) or nonlinear (curved)
- 13. The smallest number in a set of numbers
- 15. Data is equally spread; No real peaks
- 16. The difference between the largest & smallest number in a set
- 17. One clear peak
- 20. The difference between the upper & lower quartiles
- 21. The best math teacher in the whole entire world
- 25. Measures the strength of the linear relationship between two quantitative variables

- 26. The median of the lower half of a data set

Down

- 1. A frequency plot that shows the number of times a response occurred in a data set
- 2. Concentrated towards the upper range of the data
- 3. A frequency plot that shows the number of times a response or range of responses occurred in a data set
- 5. Not Symmetrical
- 6. A graph of a set of ordered pairs
- 7. Straight A student who is Mr. Waters favorite student
- 8. Concentrated towards the middle of the range in a data set

- 10. A certain someone who did not help with this project at all
- 11. Values that lie away from the rest; Value that is much smaller or larger than the rest of the numbers in a set
- 12. Two clear peaks
- 14. Number that occurs most often in a set of numbers
- 18. Determines the variability of data
- 19. The median of the upper half of a data set
- 22. The middle number in a set
- 23. The largest number in a set of numbers
- 24. The average values of numbers in a set
