

Unit Circle

Across

- 4. Inverse of tangent
- 10. $\pi/180$ radians
- 11. One divided by a number is?
- 13. If an angle has a common side and angle.
- 14. Any line that connects center of the circle with any point on the circle

- 15. Line segment that passes through the circle

Down

- 1. Longest side of a right triangle
- 2. A line that touches the curve but doesn't intersect it
- 3. The distance around the circle

- 5. What something is used for
- 6. Inverse of sine
- 7. It's 360 degrees
- 8. The space between to lines or planes that intersect
- 9. Inverse of cosine
- 12. Ratio of the adjacent side to the hypotenuse
