

VCB Evolution

Across

- 2. difference between individuals of the same species
- 7. gradual change in species over time
- 8. well tested concept that explains a wide ranged of observations
- 9. theory that species evolve during short periods of rapid change
- 10. time it takes for half of the atoms in a radioactive element to decay

Down

- 1. trait that helps an organism survive and reproduce
- 3. theory that evolution occurs slowly but steadily
- 4. fossil formed when minerals replace all or part of an organism
- 5. millions of fossils that scientist have collected
- 6. when no members of a species are still alive
