

# Vector Definitions (Carrier Support)

## **Across**

**2.** Freight that covers an entire trailer. (What we specialize in)

**5.** What is commonly used for repair expenses, lumper fees, and scale fees.

**8.** When driver must help with unloading the trailer. Driver gets paid for this.

**12.** Wood or other loose material used to keep product in place.

**13.** Drivers that own and operate their trucks themselves and book their own loads.

**14.** The process of loading or unloading in the order that the driver arrives. First there usually loaded/unloaded first.

**15.** What the product is placed on in order to load or unload the trailer with a pallet jack or fork lift.

**16.** Load of relatively small freight. Anywhere from 1-15 pallets. Usually several stops on one trailer.

**18.** Term referred to when the product that is being hauled, is loaded directly on the trailer without pallets.

**20.** Dry Vans, Refrigerated vans- Reefers, Flatbeds

## **Down**

**1.** Process of swapping out pallets when arriving at the shipper.

**3.** A laborer who is unloading the freight at the receiver. Usually paid with a lumper fee.

**4.** A charge the carrier assesses when a shipper or receiver holds a truck or trailer beyond the free time the carrier allows for loading or unloading.

**6.** Estimated Time that the driver will arrive at the shipper or receiver.

**7.** What is used when tying down or covering a flatbed load.

**9.** A fee the carrier will pay to the receiver to unload his truck. Usually reimbursed with valid receipt.

**10.** Type of trailers that haul our freight.

**11.** What some brokers offer carriers in advance to picking up the load to cover cost of fuel. Vector does not do this.

**17.** The actual product the truck is hauling.

**19.** How heavy or light of a load the carrier is hauling and how much they can haul.
