

# Vertebrate Evolution

## Across

- 2. includes the largest animals
- 3. heat
- 6. string
- 8. respiratory organ
- 12. skin of jawed fish
- 15. hole
- 16. pouch
- 18. foot
- 19. deuterostomes

22. presence of scale

- 23. gills and lungs for gas change
- 24. jawless fish
- 25. a tail in the embryo

## Down

- 1. eutherians
- 4. paired limbs and skin
- 5. sea squirts
- 7. animals with jaws

9. gas filled sac

- 10. the skull in a turtle
- 11. osteichthyes
- 13. lead an active life
- 14. bird skull
- 17. mammal skull
- 20. largest groups of vertebrate
- 21. varied in sizes and behavior
