

Visual Arts

Across

2. Occurs when the elements work well together and relate to one another closely.

5. Shapes such as circles, squares, rectangles, triangles, and diamonds

7. A throwaway item

10. Not moving, motionless

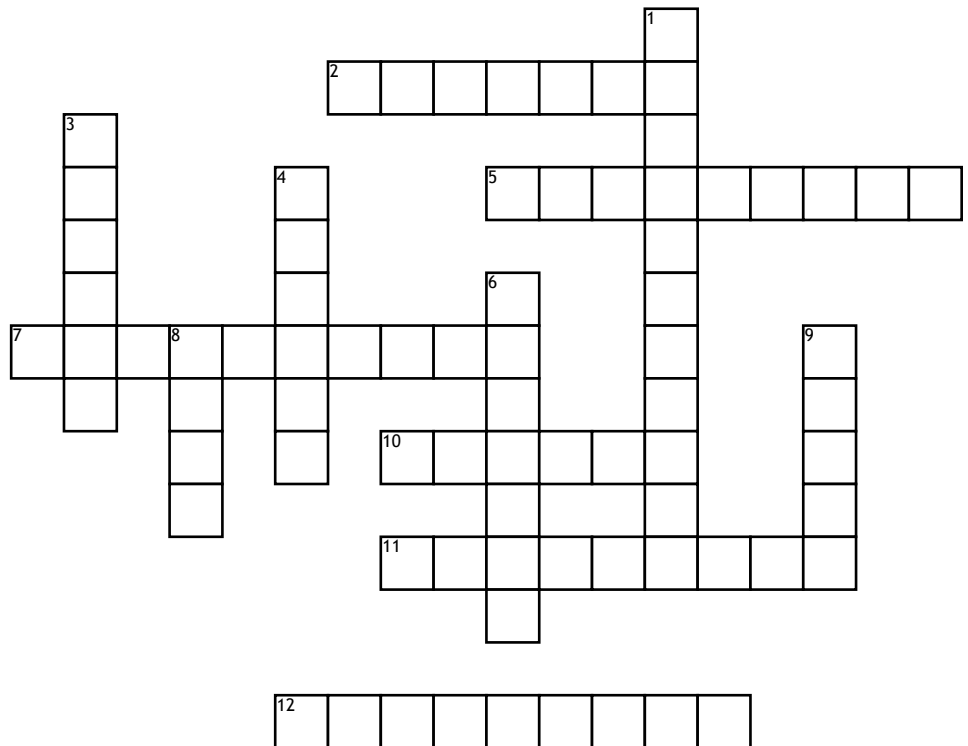

11. A popular subject for artists, as the objects that are used in a still life are usually chosen from the artist's own possessions or environment; these can be arranged to suit the artist and will remain in the same position to aid observation

12. Represent an idea, emotion or belief through a simple image, gesture, or element such as colour

Down

1. Designed and made to look the same on both sides; balanced

3. String made of natural materials like straw

4. A national head count of every citizen in our country

6. Clay that has been placed in an extremely hot fire or furnace to harden and strengthen it

8. The position taken up by the body; how we sit, stand, or lie down

9. Fold and compress the clay over itself a few times to squeeze out any air-bubbles.
