

Vocabulary Fun!!!

Across

- 2.** function that graphs to a straight line
- 5.** each of four parts of a plane
- 7.** a horizontal line on a coordinate plane
- 9.** contains the y-axis and x-axis
- 10.** a statement that the values of two mathematical expressions are equal (indicated by the sign =)

- 11.** the point or place where something begins
 - 12.** an equation between two variables that gives a straight line when plotted on a graph
- Down**
- 1.** mathematical relationship between two variables that can be expressed by an equation in which one variable is equal to a constant times the other

- 3.** equal in value, amount, function, meaning
- 4.** a pair of elements
- 6.** a surface when one side is higher than the other
- 8.** a verticle line on a coordinate plane
