

Vocabulary

Across

- 4. smaller molecules
- 7. two or more elements combined in specific proportions
- 11. very large molecules, made by joining smaller molecules together
- 15. attraction of materials of the same substance
- 16. does the dissolving
- 18. a mixture that contains water
- 20. name of reaction to build polymers

Down

- 1. material of different substances are attracted
- 2. name of the reaction in reverse
- 3. molecules that contain carbon
- 5. forms when one atom gives an electron to another atom
- 6. forms when 2 atoms share electrons
- 8. substance dissolved
- 9. large macromolecules made from monomers

- 10. determines the strength of the acid or base
- 12. the process of joining the smaller compounds to build macromolecules
- 13. atom with a charge
- 14. basic unit of all matter
- 17. molecules that do not contain carbon
- 19. physically combine 2 different materials
