

Vocabulary/Crossword

Across

- 2. which one has a 60 degree triangle
- 7. which side uses opposite and adj
- 11. Which angle has a 30 degree angle
- 14. which 1 is also is congruence
- 16. which angle has a congruence postulate
- 17. which 1 is a similarity
- 18. which side is a congruence angle

- 19. which angle is a 45 degrees
 - 20. which side uses opp and hyp
 - 21. which 1 has the same figure
 - 22. which angle has an extended circle theorem
 - 23. Which congruence is this
- Down**
- 1. which theorem is in this angle
 - 3. which angle are vertical
 - 4. which thing has a measurement
 - 5. which theorem also has angles

- 6. which angle has incidence
- 8. which angle has a reflection
- 9. which one another 45 degree triangle
- 10. which triangle has a 90 degree angle
- 12. which angle has a longer leg
- 13. which one has a a 90 degree angle
- 15. Which 1 has a similrity too

Word Bank

- | | | | |
|---------------------------|-----------------|-------------------------------------|-----------------|
| AAS | 60 triangle | 90 triangle | vertical angles |
| Alternate interior angles | AA | 45 triangle | 90 triangle |
| Angle of reflection | SAS | Right angle congruence postulate | 30 triangle |
| SSS | HYpotenuse | Exterior angles of a circle theorem | tangent |
| indirect measurement | SSS | Inscirbed angle Theorem | Sine |
| angle of incidence | Similar figures | 45 triangle | |
