# Volcanoes and Earthquakes

## Across

- 1.** Hollows that form in the opening at the top of volcanoes
- 5.** Most earthquakes occur along this
- 7.** Once magma reaches Earth's surface
- 9.** The outside layer of the Earth

- 10.** Blocks of crust and upper mantle rock that fit together like puzzle pieces

- 11.** Melted rock beneath Earth's surface

- 12.** The center of the Earth

## Down

- 2.** A shaking of the ground caused by movements of the plates of rock in Earth's crust

- 3.** The layer outside the core

- 4.** Large craters formed by an explosion or a large volcanic eruption

- 6.** Volcanoes are measured on this scale

- 8.** A mountain made of lava, ash, or other materials from eruptions
