

# Volumes of Cones & Pyramids

**Across**

- 5. A pyramid in which the top of the pyramid is not straight to the center of its base
- 6. A solid, three dimensional object that is joined at a point by a curved side
- 8. Vertical distance from the top of an object or figure to its base
- 9. A cone with an apex that is not aligned above the center of the base

- 10. The surface of an object, measured in square inches

**Down**

- 1. The space a figure occupies
- 2. A polyhedron with a polygonal base and triangles for sides
- 3. The side of a right-angled triangle that is opposite the right angle
- 4. The bottom of a shape, solid, or three dimensional object
- 7. Pythagorean Theorem
