

Name: _____ Date: _____

WATER CYCLE PROJECT

Across

- 6.** Where clouds form in the sky
- 8.** Melting of fallen snow
- 9.** When liquid turns to gas
- 10.** Flow of water in streams, rivers, and other channels. Also called channel runoff
- 11.** When water vapor turns into a liquid and falls from the sky

12. When a gas turns to a solid, skipping the liquid phase

Down

- 1.** Another name for the water cycle
- 2.** When gas turns into liquid
- 3.** Evaporation and plant transpiration from the ocean and land

4. When a solid turns directly to a gas, skipping the liquid phase

- 5.** Process of water on the ground surface enters the soil
- 7.** When excess snowmelt or stormwater flows across the Earth surface when the soil has become saturated to full capacity
