# Warming up to our Magnet Journey

## Across

6. The 14 forces of magnetism are grouped into \_\_\_\_\_ key components.
8. The highest and most prestigious distinction a healthcare organization can receive for nursing excellence and high-quality patient care
9. The characteristics of the organization and the healthcare system, including leadership, availability of resources, and professional practice models.
10. Magnet hospitals improve the quality of the \_\_\_\_\_ experience.
11. Defined as quantitative and qualitative evidence related to the impact of structure and process on the patient, the nursing workforce, the organization, and the consumer.

## Down

1. An organizational framework based on the idea of decentralized leadership that fosters autonomous decision making and professional nursing practice
2. The number of forces of magnetism
3. The Magnet journey reframes the question for the future from "What do you do?" to "What \_\_\_\_\_ have you made?"
4. Studies show Magnet hospitals have higher percentages of \_\_\_\_\_ registered nurses (RNs)
5. Only \_\_\_\_\_ percent of U.S. hospitals have earned the Magnet designation.
7. Actions involving the delivery of nursing and healthcare services to patients, including practices that are safe and ethical, autonomous, and evidence-based, with efforts focused on quality improvement.
