# Water Cycle and Reservoirs

## Across

2. Water that is under the ground?
4. Water falling from the sky?
5. The glacier in the park?
7. Gases that surround the earth?
9. A river that goes through the park?

**10.** What happens when the water goes up in the air?

## Down

1. One of the lakes in the park?
3. Another lake in the park.
6. Draining away of water from the surface of an area?
8. White fluffy stuff falling from the sky?
