

Name: _____

Waves Vocabulary

Across

5. Pressure and density are at a maximum

7. Lowest Point

8. Particles vibrating parallel

10. Frequency measured in Hertz

13. Particles vibrating perpendicular

14. Maximum displacement

15. A disturbance can travel through a __

Down

1. Time it takes to complete a cycle

2. Radiate outward from a source at the speed of light

3. Requires energy moving through a medium

4. A sound that correlates a physical strength

6. Pressure and density are at a minimum

9. Crest to crest, trough to trough

11. Standard Unit of Frequency

12. Highest Point
