# Waves

## Across

1. Waves that don't require a medium.
6. An area where the waves are spread apart.
8. The maximum distance the medium vibrates from the rest position.
9. The distance between 2 crests or 2 troughs.
10. The highest point of a wave.

## Down

2. Gas, liquid, or solid for a wave to travel through.
3. Waves that require a medium.
4. An area where the waves are very close together.
5. The lowest point of a wave.
7. The number of waves that pass a given point in a certain amount of time.
