

Name: _____

Date: _____

Weather

Across

7. An air mass that is cold and dry is?

9. What weather does warm front bring when it is warm?

10. What is a global wind that is 30 N and 30 S?

11. How many global winds are there?

14. The most dense air is located in?

15. What is a narrow belts of high speed winds that blow in the upper troposphere and lower stratosphere?

16. What air has high pressure

17. What breeze does low pressure air over the land rise, and cooler air from the sea take its place

18. Does low air pressure systems sink or rise in the atmosphere?

19. What is a global wind that is 30-60 N and S

20. What does mP stand for

Down

1. What does cT stand for?

2. What type of weather is associated with a cold front?

3. What air has low pressure

4. air moves in smaller circular patterns called?

5. An air mass that is cold and wet is considered?

6. What air mass will mostly likely to be hot and humid?

8. What breeze does low pressure air over the sea rise, and cooler air from the land take its place

12. Wind is caused because of _____ heating of the earth?

13. What is a global wind that is 60 N and S?
