

Weather and natural disasters

Across

1. The sudden loud noise that comes from the sky especially during a storm.
3. An extremely large wave caused by a violent movement of the earth under the sea.
6. A flash of bright light in the sky that is produced by electricity moving between clouds or from clouds to the ground.
9. A strong, dangerous wind that forms itself into an upside-down spinning cone and is able to destroy buildings as it moves across the ground

10. A strong wind in a desert carrying a large amount of sand.

Down

2. A sudden strong wind.
4. The season of heavy rain during the summer in hot Asian countries.
5. A large amount of water covering an area that is usually dry.
7. A very strong wind.
8. A long period when there is little or no rain.
