Web Vocab

Across

2. Any character that shows up as a blank space on the screen, such as a space, a tab, or a new line, helps separate different parts of the document to make it easier to read
3. The raw text, images, and other elements included in a web page.
5. Finding and fixing problems in an algorithm or program
8. A collection of public copyright licenses that enable the free distribution of an otherwise copyrighted work, used when an author wants to give people the right to share, use, and build upon a work that they have created.
9. A piece of a website marked by a start tag and often closed with an end tag

12. The placement of text farther to the right or left of the surrounding text, making it easier to understand the program's structure

14. The purpose of different pieces of content in a web page, used to help the computer determine how that content should be displayed.

15. The special set of characters that indicates the start and end of an HTML element and that element's type

16. Hypertext Markup Language, a language used to create web pages

17. The exclusive legal right to print, publish, perform, film, or record literary, artistic, or musical material, and to authorize others to do the same.

18. A work or invention that is the result of creativity, such as a piece of writing or a design, to which one has rights and for which one may apply for a patent, copyright, trademark, etc.

Down

1. The collected information about an individual across multiple websites on the Internet

4. Part of a program that does not work correctly.

6. A note in the source code of a computer program that helps explain the code to people who read it

7. The raw text, images, and other elements included in a web page

10. A link from a HTML file to another location or file, typically activated by clicking on a highlighted word or image on the screen

11. Collection of interlinked web pages on the World Wide Web

13. A title or summary for a document or section of a document
