

Week 3 Engineering Design Process

Across

2. Scientists choose the plan with the best _____.

4. Once all data is collected the scientist will _____.

5. The name other cycle that help engineers solve scientific problems.

9. something that goes wrong

10. fourth step in the design process

12. Materials are used during the Imagine step to test the _____.

Down

1. Engineers do what?

3. Imagine creative ideas in engineering

6. During the creative step, scientists will _____ to a plan.

7. The 5th step

8. second step in the Engineering Design Process

11. During the Plan step what should happen?

13. The third step
