# Winds

## Across

- 4. Winds that blow over short distances.
- 8. Used to measure wind speed.
- 9. The way Earth's rotation makes wind curve.
- 10. Differences in air pressure are usually caused by the unequal heating of the \_\_\_\_\_.

## Down

- 1. A local wind that blows from land to a body of water (occurs during the night).

- 2. The increased cooling that a wind can cause.
- 3. Differences in \_\_\_\_\_ cause air to move.
- 5. A local wind that blows from a body of water to land (occurs during the day).
- 6. The movement of air parallel to Earth's surface.
- 7. Winds that blow steadily from specific directions over long distances.
