

Name: _____

Date: _____

Wk 1 Terminology and Heart Anatomy

Across

- 3. Abnormal heart rhythms
- 5. Small Vein
- 6. This valve is located between the left atria and left ventricle
- 8. Middle layer of heart wall, true heart muscle
- 12. Heart Attack
- 14. Located between right atrium and right ventricle
- 15. Largest artery in the body
- 16. Inner layer of heart wall

- 17. One of the 2 upper chambers of heart

- 18. The left ventricle pumps _____ blood out to all the cells of the body
- 20. Prevents friction between the 2 layers of the pericardium

Down

- 1. Smallest blood vessel
- 2. What type of valves are the tricuspid valve and bicuspid valve?
- 4. Lower chambers of heart

- 7. Natural Pacemaker of the heart
- 9. Prevent backflow of blood
- 10. Double-layered membrane surrounding the heart
- 11. Inner layer of a vessel
- 13. Relaxation Phase
- 19. Foundation of the word
