

Wyatt Havin

Across

3. An atmospheric condition formed through a combination of weather conditions and pollution.

4. Conversion of sulfur oxides and nitrogen oxides to acids that return to Earth as rain, snow, or fog.

11. Wealth in the form of money or property, used or accumulated in a business by a person, partnership, or corporation.

14. An industry for which labor costs comprise a high percentage of total expenses

15. the act of unloading, transferring, or distributing part or all of a shipment.

16. To send out (work, for example) to an outside provider or manufacturer in order to cut costs.

17. The amount of oxygen required by aquatic bacteria to decompose a given load of organic waste; a measure of water pollution.

19. Location factors related to the transportation of materials into and from a factory

20. The phenomenon whereby the earth's atmosphere traps solar radiation, caused by the presence in the atmosphere of gases such as carbon dioxide, water vapor, and methane that allow incoming sunlight to pass through but absorb heat radiated back from the earth's surface.

Down

1. Gases used as solvents, propellants in aerosols, refrigerants, and in plastic foams and fire extinguishers

2. law that forbids unions and employers to enter into agreements requiring employees to join a union and pay dues and fees to it in order to get or keep a job.

5. A series of improvements in industrial technology that transformed the process of making goods

6. Something, especially foodstuff, subject to decay or spoilage

7. Sulfur oxides and nitrogen oxides that enter the atmosphere where they combine with oxygen and water to form sulfuric and nitric acid and return to Earth's surface.

8. Concentration of trace substances such as carbon monoxide at a greater level than occurs in average air

9. A method of solid waste disposal in which refuse is buried between layers of dirt so as to fill in or reclaim low-lying ground.

10. Location factors related to the costs of factors of production inside a plant, such as land, labor, and capital.

12. a foreign-owned factory in Mexico at which imported parts are assembled by lower-paid workers into products for export.

13. A cloth, especially one manufactured by weaving or knitting

18. A gas that absorbs ultraviolet solar radiation
