

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# You Choose

## Across

1. transfer of thermal energy in a fluid
3. what the earth spins on
6. spinning
10. movement of air
13. Air mass with lots of atmospheric pressure
14. front that causes warm weather
15. when something's not lined up straight

16. formed when cold front takes over warm front

17. southern half of the earth

## Down

2. north half of the earth
4. two different air masses hit and don't move
5. a boundary between two different air masses
7. a large volume of water flowing in a certain direction

8. a front that brings cold weather

9. tropical weather system consisting of low air pressure, lots of rain, and high speed winds

11. change in temperature over the year

12. Air mass with low amounts of atmospheric pressure
