

Name: _____

Date: _____

Cellular structures

Across

7. Stacked flattened membranes

8. Directs all cells activity and is separated from the cytoplasm by the membrane

9. All cells have an outer covering

10. Inside every cell is a gelatinlike material

11. Extends from the nucleus to the cell membrane

12. In plant cells food is made and green organelles in the cytoplasm

Down

1. Tough rigid outer covering that protects the cell and give its shape

2. Organelles where energy is released from breaking down food into carbon dioxide and water

3. Within the cytoplasm of eukaryotic cells are structures

4. Cells make their own proteins on small structures

5. A group of similar cells that work together to do one job

6. A structure made up of two or more different types of tissues that work together
