

# Periodic table

## Across

1. Bohr
3. Number of protons and number of electrons
5. Dalton Modern
6. Shininess
9. The basic building blocks of matter
12. Protons and neutrons are found in the center of the Atom
14. Rutherford
15. 88 elements

## Word Bank

Adamek number	1932	Element	1897	1808
Nucleus	Element	Atom	Element symbol	Non-metals
Luster	Metals	1913	Atomic number	Atomic mass/weight
Positive	No change	1911	Electrons	Negative

## Down

18. Neutron
19. If you change the number of protons in and Adam has you change the type of
20. Number of protons and neutrons
2. 17 elements
4. Proton

7. Number of protons and electrons in an Atom of an element

8. And abbreviation for the element

10. Orbit the Nucleus

11. Thomason

13. Chadwick

16. Electron

17. Hey substance that is made entirely of one type of Atom
