

Name: _____

Date: _____

biology 2

Across

3. what is mitosis used for?
4. what organism uses mitosis for body cells.
6. sixth step of scientific method
8. what is an educated guess?
10. what is a group of chromosomes called?
11. what is MessengerRibonucleicAcid short form?
16. chain of amino acids
17. spindle fibers attach to what in mitosis
20. spindle fibers are created by what?

21. how many steps are there in the scientific method?
22. what does TransferRibonucleicAcid stand for?
23. set of three nucleotide that codes for MRna strand.
26. fourth step of scientific method
27. what is a nucleotide?
28. third step of scientific method
30. where does translation take place?

Down

1. what is an inference?
2. what is the first step of scientific method
5. what does DNA stand for?

7. spindle fibers sort what.
9. what takes thymines place in RNA
12. second step of scientific method
13. what is before mitosis?
14. building blocks of protien.
15. where does transcription take place?
18. seventh step of scientific method
19. what organism uses mitosis to reproduce.
24. fith step of scientific method
25. what is the first phase of mitosis?(pmat)
29. how many phases are there in mitosis total?
