

Name: _____

Date: _____

cell

Across

- 2. always things in and out of the cell
- 3. The things in side the cells
- 4. this cell has a nucleus
- 8. produce the energy currency of the cell
- 11. cell structure that makes protein
- 13. organelles that contain digestive enzymes.

- 14. helps a plant stand up only in plant cells

- 15. this cell doesn't have a nucleus

- 16. sorting and packaging of proteins for secretion

Down

- 1. folding of protein molecules in sacs called cisternae and the transport of synthesized proteins in vesicles to the Golgi apparatus

- 5. move liquid past the surface of the cell
- 6. work to convert light energy of the Sun into sugars that can be used by cells

- 7. being sensitive to chemicals and temperatures outside the cell

- 9. is made up of mostly water and salt

- 10. holds DNA

- 12. In every living thing
