

circuits

Across

6. non-ending path

8. material that allows electrons to flow through

9. 1 path to multiple bulbs

11. device for making or breaking of electrical circuit

12. one or more paths for current flow

13. rate of work

14. doesn't allow electron to go through

Down

1. 1 path for 1 bulb

2. a break in the circuit to prevent flow

3. electrical current path

4. flow of electrical charge

5. complete circuit

7. stored energy in a cell

10. force moving an object a certain distance
