keyboarding terminology part 2

Across

6. an arrangement of keys on a

"board" that is attached to a computer

11. a bar that contains short cut

functions

13. a flashing line on the display screen which indicates where the next character or space can be entered

14. used to save, print and close a document and to exit a program

15. used to cancel a function or exit a program selection

16. a key used to give another set of commands. Control (ctrl) commands are commonly used shortcuts. For example, pressing Ctrl+S in many programs saves a document in the same fashion as selecting Save from the File menu.

17. A command that allows users to cancel or undo their last command or action

18. a listing of available software options that appears on a display screen

19. used to move the cursor to the end of a line or of the document depending on the software being used

20. special keys on computers that are used alone or in combination with other keys to perform special operations such as setting margins, centering copy, etc.

Down

1. used to return cursor to left margin and down to the next line; also, to enter system commands

2. the process of arranging a document in proper form or style

3. A tool that automatically wraps text to the next line as it reaches the right margin.

4. a software function that records keystrokes on a disk so that the data may be retrieved later

5. line spacing term, leave no blank space between printed lines of copy

7. the act of writing, storing and printing letters, reports, and other documents on a computer

8. line spacing term, leaves one blank line space between printed lines of copy

9. used to move the cursor to the beginning of the page

10. used to add new text or spaces between existing text without re-keying the entire document

12. used to move the cursor to the end of the page
