# made in the stars

## Across

2. non metals are  
9. where are electrons orbiting  
11. Where protons and neutrons found  
15. a column in the periodic table is called  
17. a very unreactive gas

## Down

1. subatomic particles with no mass  
3. group 1 elements  
4. the unreactive gases  
5. metals are good conductors ?  
6. where are elements made

7. why is iron used to make a fence  
8. a liquid metal  
10. very reactive non metals  
12. a row in the periodic table is called  
13. liquid non metal  
14. a very reactive gas  
16. mass of a proton
