

# oof

## Across

- 4.** A tool on a map showing cardinal (N,E,S,W) and intermediate (NE,SE,NW,SW) directions.
- 9.** an imaginary line around the Earth parallel to the equator
- 11.** A landform with high elevation and high relief
- 14.** an inland body of water
- 16.** key to the symbols used on a map
- 17.** a natural flow of water that runs through the land
- 19.** lines that run east and west, horizontally and never touch or cross; latitude lines are parallels

- 20.** One of the principal land masses of the earth, usually regarded as including Africa, Antarctica, Asia, Australia, Europe, North America, and South America.

## Down

- 1.** picture that represents something
- 2.** relationship of two distances
- 3.** Sections of the Earth divided by the Equator and Prime Meridian (Northern, Southern, Eastern, and Western)
- 5.** an imaginary line around the Earth forming the great circle that is equidistant (equal distances) from the north and south poles
- 6.** The middle line of longitude, measuring 0 and dividing the globe into E / W hemispheres.
- 7.** horizontal and vertical lines that form squares to help locate items
- 8.** imaginary lines that pass through the Poles
- 10.** a deep, narrow valley with steep sides
- 12.** another name for lines of longitude
- 13.** part of a large body of water that is smaller than a gulf
- 15.** an area of land that sticks out into a lake or ocean
- 18.** a nearly flat area
