

Name: _____

Date: _____

vocab. charlie rehberg

Across

10. a scale that rates earthquakes by estimating the total energy released by an earthquake

11. a type of seismic wave that compresses and extends the ground.

Down

1. a scale that rates an earthquake by its intensity and how much damage it can cause

2. a device that records ground movements caused by seismic waves as they move through earth

3. the shaking that results from the movement of rock beneath earth's surface

4. the measurement of an earthquake's strength based on seismic waves and movement along faults

5. a type of seismic wave that forms when the p wave and s wave reach earth's surface

6. a scale that rates an earthquake's magnitude based on the size of its seismic waves

7. a type of seismic wave that moves the ground up and down or side to side.

8. the point on earth's surface directly under the focus.

9. the point beneath earth's surface where rock breaks under stress and causes an earthquake
