

water cycle and weather

Across

2. any form of water that falls to the earth

6. a scientist's weather prediction

9. tool that measures wind speed

10. shows direction from which the wind is blowing

11. process of changing liquid water to water vapor

12. measures air pressures either in inches or millibars

Down

1. process of water vapor becoming liquid water

3. this measures air temperature

4. carbon dioxide is called this

5. scientists that study weather conditions

7. area where two air masses meet

8. amount of water vapor in the air
