

waves

Across

- 4. a wave trasmits _____
- 6. _____ - the part of a longitudinal wave where the particles are far apart
- 8. electromagnetic waves- dont travel through a _____
- 10. _____ - where the material is pushed together

Down

- 1. _____ wave is botha longitodal wave and a transverse wave

- 2. a distance between any jacent crests or compressions in a series of waves
- 3. crest-the _____ on a wave
- 5. amplitude- the _____ distance a disruhggds
- 7. frequency- the number of complete wavelength thats pass a point in a given _____
- 9. _____ - the lowest poing on a wave
