# worksheet

## Across

- 3.  $y - y_1 = m(x - x_1)$
- 6. Completing the
- 10. Has a vertex
- 12. Highest or lowest point on the parabola
- 13. aftercubic
- 14. 2 numbers
- 15. 3 numbers
- 17. After quadratic

## 18. $AX + BY = C$

- 19. The easiest form to find vertex in
- 20.  $y = mx + b$

## Down

- 1. When X is 0
- 2. can't do the problem
- 4. The guy who invented the pythagorean theorem

## 5. $-b \pm \sqrt{b^2 - 4ac} / 2a$

- 7. An equation with a squared variable within it
- 8. Has a vertex
- 9. The equation that makes a parabola
- 11. Unknown number
- 16. When Y is 0
